On behalf of the Organising Committee of the 8<sup>th</sup> Trends in Head & Neck Oncology, we invite you to participate in this meeting, which will take place from 11-13 November 2021, face 2 face in Amsterdam, The Netherlands, and online.

With a wealth of exciting data emerging in this rapidly evolving field the THNO-8 meeting will review the state-of-the-art knowledge with emphasis on multidisciplinary decision and management of head and neck cancer, with at the same time giving ample time to discuss: the role of the microbiome, new targets for treatment, immunotherapy, resistance mechanisms, standardizing molecular profiling programs, new methods to guide therapeutic approaches, the different treatment approaches in primary disease and in recurrent a/o metastatic disease, new developments in pathology, surgery and reconstruction techniques, new systemic therapies in salivary gland cancer, supportive care and follow-up.

All disciplines involved in the treatment of head & neck cancer will be represented in integrated sessions. The translation to daily practice will be highlighted by interactive clinical case discussions facilitated by panels. The 8th-THNO is designed for medical oncologists, head and neck surgeons, radiation oncologists, otolaryngologists, and other medical professionals involved in the treatment of patients with head and neck cancer.

It must be understood that this letter does not represent a commitment on the part of the meeting organisers to provide any financial assistance.

Sincerely,

Sander Zikkenheimer
